THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired refitted, and refurnished through out with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P & K Railroad, to and from which Coaches are always in readiness to convey passengers

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage

NATHAN PERRY, Jr

Bangor, Feb 26, 1856

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Traveling Public that he has reopened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE and made every arrangement necessary to continuing it as a First Class Hotel

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House

In connection with the above are good Stables with attentive and careful Hostlers

A SURE PRIZE

For Every Tenth Person!!

CHANCE FOR A GRAND PIANO, FOR EVERYBODY.

ONLY TWO DOLLARS!!

400 *Beautiful Gold Watches 100 Rosewood Grand Piano Fortes, Ladies Bracelets Watch Chains, Breast Pins, Diamond Rings and Silver Spoons*

TO BE GIVEN AWAY

Encouraged by the success which has attended the publication of *LESLIE'S ILLUSTRATED NEWSPAPER*, which is now closing its second volume, the Proprietor has determined to return to his numerous subscribers a portion of his profits in the following manner

Every tenth subscriber will have his money returned by the next mail, and the paper will be sent *gratuitously* for his term of subscription

Thus in every 1000 subscribers, 100 will have their money returned and the paper sent for Six Months when they remit Two Dollars, and Twelve Months when they remit $4

Every subscription as it is received, by letter or otherwise, at his Office, 12 Spruce-st, New York, will be registered in a book kept by the Proprietor himself

The Prize numbers will be 10, 20 30, 40, 50, 60, 70, 80 90, and 100 in each hundred Persons obtaining any of these numbers will have their money returned and the paper sent free as above

Persons obtaining the following numbers in every thousand in addition to the return of their subscription money as above, will receive the following prizes

No 100 Lady's Gold Bracelet
" 200, Gentleman's Gold Watch Chain
" 300, Gold Watch, (Lady's or Gent's)
" 400 Lady's Gold Chatelaine
" 500, Set of Silver Tea Spoons
" 600 Gold Breast Pin
" 700, Gold Watch, (Lady's or Gent's)
" 800, Diamond Ring, (Lady's or Gent's)
" 900, Set of Silver Dessert Spoons
" 1,000, Grand Rosewood Pianoforte

These prizes will be given to the same numbers in each and every thousand, in addition to the subscription money being returned and paper sent free to each and every tenth subscriber, as above stated

This subscription book was opened October 20 1856 in which all future subscriptions will be registered

Every person whose money is returned or who is the recipient of either of the above prizes, will be required to furnish an acknowledgment of the same, and their names will be published from time to time in the advertising columns of Leslie's Illustrated Newspaper

It should be borne in mind that *every* subscriber under all circumstances, whether the recipient of a prize or not, will get more than a full equivalent for his money in the paper itself This is the only Illustrated Newspaper in the United States

CLUBBING—Persons sending us Eleven subscribers are certain to receive back one subscription and have a chance for two, for example, on the receipt of the eleven subscriptions, the last number on the books might be 89—the eleven additional subscribers will then include two prizes

FRANK LESLIE'S ILLUSTRATED NEWSPAPER—The last numbers of Frank Leslie's Illustrated Paper have come to hand In style and general appearance it resembles—and is quite equal to—the London Illustrated News, which is world renowned for the excellence and variety of its illustrations The New York paper, however, is sold at half the price of its London prototype The engravings in *Frank Leslie* are infinitely superior to those in *Ballou's Pictorial*—*Whig, Easton, Pa*

PROFESSOR WOOD'S

HAIR RESTORATIVE.

It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned does not admit of doubt besides, it will cure every possible disease of the scalp whether developed as dandruff itching or in the shape of cutaneous eruptions—even scald head—and in no possible case will it fail of curing as if by magic, nervous or periodical Head ache, and if used twice a week by the young regularly it will preserve the color and keep the hair from falling to any imaginable age Read and judge

MILLFORD Worcester Co, Mass, Nov 1855

PROF O J WOOD—Dear Sir—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative As far back as 1836 my hair commenced falling off until the top of my scalp became bald and smooth as glass and it has continued to fall for a great many years notwithstanding I have used many celebrated preparations for restoration Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment found after a few applications that my hair became firmly set and assumed a glossy and beautiful appearance and by the time I had used a quart bottle my bald head was covered over with a young and vigorous growth of hair which is now from one to two inches and a half in length and growing fast

Yours truly
HENRY GOODRICH

CHARLESTON Mass Aug 9 1855

GENTS—Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been would induce me to give this public acknowledgment of the benefit I have received from Prof O J Wood's Hair Restorative When I first commenced using it my hair was quite gray, and in spots entirely bald I have now used the Restorative about five months and my hair is entirely changed to its original color ... and the new hair is over three inches in length ... where it was bald I have also been much gratified at the healthy moisture and vigor of the hair which before was dry and it has ceased to come out as formerly

Respectfully yours &c.
MRS R A STODDARD

From Mrs Ingalls, a well known nurse in Boston

BOSTON Oct 19 1855

GENTS—At your request and being so highly pleased with the effects of the Restorative I am free to state that my hair had become quite thin and entirely white I have for the last five years been in the habit of using dye but hearing of the extraordinary effects of the article I was induced to try it My hair has been restored to its original thickness, and almost its first color which is light brown

Yours respectfully
MRS INGALLS

The following is from the Pastor of the Orthodox Church Brookfield—

BROOKFIELD Mass Jan 12 1856

PROF WOOD—DEAR SIR—Having made trial of your Hair Restorative it gives me pleasure to say that its effects have been excellent in removing inflammation dandruff, and a constant tendency to itching, with which I have been troubled from my childhood and has also restored the hair which was becoming gray to its original color I have used no other article with anything like the same pleasure and profit

Yours truly
J K BRAGG

(From the Jersey City Telegraph)

WHAT IS IT FOR—THIS WOOD'S HAIR RESTORATIVE—Is a question asked daily by hundreds We answer without hesitation or fear of contradiction that it is the only article known which will do all it promises for the human hair *It will renew its growth—it will stop its falling—it will restore its natural color.* It is not a hair dye but a speedy and efficient Restorative

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U S Patent Office Washington, under the Act of 1837)

No. 76 State Street, opposite Kilby St.,

BOSTON

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States also in Great Britain France, and other foreign countries Caveats, Specifications Assignments and all Papers or Drawings for Patents executed on liberal terms, and with despatch Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe, render him able beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington to procure a Patent, and the usual great delay there are here saved inventors

Testimonials

During the time I occupied the office of Commissioner of Patents R H EDDY Esq of Boston did business at the Patent Office as Solicitor for procuring Patents—There were few if any persons acting in that capacity who had so much business before the Patent Office and there were none who conducted it with more skill fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE
Late Commissioner of Patents

[From the present Commissioner]

August 17 1857 — During the time I have held the office of Commissioner of Patents R H Eddy Esq of Boston has been extensively engaged in the transaction of business with the Office as a Solicitor He is thoroughly acquainted with the law and the rules of practice of the office I regard him as one of the most capable and successful practitioners with whom I have had official intercourse CHARLES MASON Com r of Patents

Chief Justice Taney and the Truth of History.

To the Editor of the Whig and Courier

Chief Justice Taney in his opinion in the Dred Scott case is reported to have made use of the following language

It becomes necessary therefore to determine who were citizens of the several States when the Constitution was adopted. In order to do this we must recur to the Colonies when they separated from Great Britain formed new communities and took their place among the family of nations. They who were recognized as citizens of the States declared their independence of Great Britain and defended it by force of arms. Another class of persons, who had been imported as slaves or their descendants were not recognized or intended to be included in that memorable instrument—the Declaration of Independence. It is difficult at this day to realize the state of public opinion respecting that unfortunate class, with the civilized portion of the world at the time of the Declaration of Independence and the adoption of the Constitution but *history shows that they have for more than a century been regarded as beings of an inferior order and unfit associates for the white race either socially or politically*, and had no rights which white men were bound to respect and the black man might be reduced to slavery bought and sold and treated as an ordinary article of merchandise. This opinion at that time was fixed and universal with the civilized portion of the white race. It was regarded as an axiom in morals which no one thought of disputing, and every one habitually acted upon it without doubting for a moment the correctness of the opinion. And in no nation was this opinion more fixed or more generally acted upon than in England and the subjects of which Government not only seized them on the coast of Africa but took them as ordinary merchandise to where they could make a profit on them. The opinion thus entertained, was universally impressed on the Colonists this side of the Atlantic accordingly negroes of the African race were regarded by them as property and held and bought and sold, as such in every one of the thirteen colonies which united in the Declaration of Independence and afterwards formed the Constitution.

It will be perceived by those who read the opinions of the majority of the Judges, that the decision of the court in this case, so far as regards the question of citizenship (which was in fact the only question upon which the decision can have the force of law) is concerned rests upon the facts assumed in the above citation

Is it true as the Chief Justice has affirmed or has he misstated or misrepresented some of the best authenticated, and hitherto undisputed facts of history

The Chief Justice asserts that for more than a century—that is, for a period commencing more than thirty years anterior to the adoption of the federal Constitution—slaves have been regarded as beings of an inferior order and unfit associates for the white race, either socially or politically and HAD NO RIGHTS WHICH WHITE MEN WERE BOUND TO RESPECT *and the black man might be reduced to slavery bought, and sold and treated as an ordinary article of merchandise* This opinion he says, was *fixed and universal* with the civilized portion of the white race, and nowhere was it more fixed or more generally acted upon than in England and he adds, it was *universally* impressed on the colonists on this side of the Atlantic

Notwithstanding these declarations of the Chief Justice it is true, as he must have known, that the highest judicial tribunal in England had declared by a well considered judgment, which has been respected as the unquestionable law of the realm to this day that negroes *had* rights which white men were bound to respect and that in England the black man could *not* be reduced to slavery nor sold as merchandise, a judgment which authorized Curran to say in 1796 that the British law proclaimed 'even to the stranger and the sojourner the moment he sets his foot upon British earth that the ground on which he treads is holy and consecrated by the genius of UNIVERSAL EMANCIPATION' and which enabled him to add those memorable words—"no matter in what language his doom may have been pronounced —NO MATTER WHAT COMPLEXION INCOMPATIBLE WITH FREEDOM AN INDIAN OR AN AFRICAN SUN MAY HAVE BURNT UPON HIM no matter in what disastrous battle his liberties may have been cloven down no matter with what solemnities he may have been devoted upon the altar of *slavery* the first moment he touches the sacred soil of Britain the altar and the god sink together in the dust his soul walks abroad in her own majesty his body swells beyond the measure of his chains that burst from around him and he stands redeemed regenerated and disenthralled by the irresistable genius of UNIVERSAL EMANCIPATION.

And yet, the Chief Justice of the Supreme Court of the United States announces to the world in a solemn decision, that at the very time when this speech was made, it was the *fixed and generally acted upon opinion in England* that a black man had no rights which white men were bound to respect, and might be reduced to slavery bought, sold, and treated as an ordinary article of merchandise!'

Notwithstanding these declarations of the Chief Justice, it is true that persons of African descent, were, if free, recognized and treated in several of the States, as citizens, at the time of the Revolution, and that in the struggle for independence they participated actively and efficiently, contributing in some instances entire companies to the service of what they must have regarded as the cause of their country

Judge Curtis, in his opinion, states—

"*Of this there can be no doubt.* At the time of the ratification of the articles of confederation, it is a fact beyond the reach of the most ingenious doubts, that all free, native born inhabitants of the States of New Hampshire, Massachusetts, New York, New Jersey, and North Carolina, though descended from African slaves, were not only citizens of those States, but such of them as had the other necessary qualifications, possessed the franchise of electors on equal terms with other citizens."

Notwithstanding these declarations of the Chief Justice, it is true that Thomas Jefferson, speaking in his autobiography, of his labors in the Virginia Legislature between 1776 and 1779, has informed us that,

"The bill on the subject of slaves, was a mere digest of the existing laws respecting them, without any intimation of a plan for a future and general emancipation. It was thought better that this should be kept back, and attempted only by way of amendment whenever the bill should be brought on *The principles of the amendment, however, were agreed on, that is to say the freedom of all born after a certain day* —Jefferson's Works, vol. 1, pp 48—49

Nevertheless, if the Chief Justice is to be credited, it was "*universally* impressed on the colonists that the black man was a slave, and a slave ought ever to remain.

In 1774 Mr Jefferson wrote as follows

"The *abolition of domestic slavery is the great object of desire in these colonies*, where it was unhappily introduced in their infant state — But previous to the enfranchisement of the slaves we have, it is necessary to exclude all further importations from Africa. Yet our repeated attempts to effect this by prohibitions and by imposing duties which might amount to a prohibition, having been hitherto defeated by his Majesty's negative, preferring a few British corsairs to the lasting interests of the American States, and to the rights of human nature deeply wounded by this infamous practice (Ibid p 135) Still, we are bound to believe I suppose, that prior to the Declaration of Independence, no man in America ever thought of a negro except as a slave and a chattel, or ever dreamed of emancipation

Notwithstanding the assertion of the Chief Justice that for a century the negro has been regarded as a being of an inferior order, and that at the time of the formation of the constitution it was the universal opinion in this country that he was incapable of having any lot or part in that instrument, it is true that Mr Jefferson wrote in 1791 to Benj Bannebar a colored man, as follows

I thank you sincerely for your letter of the 19th instant, and for the almanac it contained Nobody wishes more than I do to see such proofs as you exhibit that nature has given to *our black brethren* talents equal to those of the other colors of men, and that the appearance of a want of them is owing merely to the degraded condition of their existence, both in Africa and America. I can add with truth that no one wishes more ardently to see a good system commenced for raising the condition both of the body and mind to what it ought to be, as fast as the imbecility of their present existence, and other circumstances which cannot be neglected, will admit. I have taken the liberty of sending your Almanac to Monsieur de Condorcet, Secretary of the Academy of Sciences, and member of the Philanthropic Society because I considered it as a document to which your color had a right for their justification against the doubts which have been entertained of them I am with great esteem Sir your most obedient humble servant. (Ibid vol 3 291)

Remember that the question raised by the Chief Justice is not as to the actual capabilities and just rights of the African race, but how were they regarded by the American people, and particularly by the leading Statesmen of the country at the time of the formation of the Constitution

In the light of the views and opinions above quoted and of the fact that in that portion of the original draft of the Declaration of Independence which (Mr Jefferson says) was struck out in complaisance to South Carolina and Georgia, negroes were spoken of as MEN is it possible for all the Chief Justices in the world to raise a doubt in the mind of any person of ordinary intelligence, that Mr Jefferson meant to include black men as well as white in the general expression that 'all men are created equal &c

And yet the decision in the Dred Scott case, so far as it is law, is based on the assumption that Mr Jefferson and his associates did not regard negroes as *men* but as *things*, and as incapable of being any thing else

Notwithstanding these declarations of the Chief Justice, it is true that the Legislature of Pennsylvania, in the midst of the Revolution, in the year 1780 passed an act for the abolition of slavery in that State the reasons for which are set forth in the following

When we contemplate our abhorrence of that condition to which the arms and tyranny of Great Britain were exerted to reduce us when we look back upon the variety of dangers to which we have been exposed and how miraculously our wants in so many instances have been supplied and our deliverances wrought when even hope and human fortitude have become unequal to the conflict we are unavoidably led to the serious and grateful sense of the manifold blessings which we have undeservedly received from the hand of that Being from which every good and perfect gift cometh. Impressed with these ideas we conceive that it is our duty, and we rejoice that it is in our power to extend a portion of that freedom to others which hath been extended to us, and release from that state of thraldom to which we ourselves were tyrannically doomed and from which we have now every prospect of being delivered It is not for us to inquire why in the creation of mankind the inhabitants of the several parts of the earth were distinguished by a difference in feature or complexion.

"It is sufficient to know that all are the work of an Almighty hand We find in the distribution of the human species, that the most fertile, as well as the most barren parts of the earth are inhabited by men of complexion different from ours, and from each other from whence we may reasonably as religiously infer that he who placed them in their various situations hath extended equally His care and protection to all and it becometh not us to counteract His mercies We esteem it a peculiar blessing granted to us, that we are enabled this day to add one more step toward universal civilization by removing as much as possible the sorrows of those who have lived in undeserved bondage, and from which by the assumed authority of the kings of Great Britain no effectual legal relief could be obtained. Weaned by a long course of experience from those narrow prejudices and partialities we had imbibed we find our hearts enlarged with kindness and benevolence towards men of all conditions and nations and we conceive ourselves, at this particular period, extraordinarily called upon by the blessings which we have received, to manifest the sincerity of our profession, and to give a substantial proof of our gratitude.

"And whereas the condition of those persons who have heretofore been denominated negro and mulatto slaves has been attended with circumstances which not only deprived them of the common blessings which by nature they were entitled to, but has cast them into the deepest afflictions by an unnatural separation and sale of husband and wife from each other, and from their children—an injury the greatness of which can only be conceived by supposing that we were in the same unhappy case, in justice therefore, to persons so unhappily circumstanced, and who have no prospect before them whereon they may rest their sorrows and their hope—have no reasonable inducement to render their service to society, which they otherwise might, and also in grateful commemoration of our own happy deliverance from that state of unconditional submission to which we were doomed by the tyranny of Britain Therefore, *Be it enacted &c*

This preamble, so eloquent, so truthful and so earnest, the prelude to so conspicuous an act as the abolition of slavery in the great State of Pennsylvania, has a hallowed [illegible]

It was to this that Daniel Webster referred in 1844, when in addressing the people of Philadelphia, he said—

"The preamble was the work of your fathers they sleep in honored graves there is not I believe, one man living now who was engaged in that most righteous act. There are words in that preamble fit to be read by all who inherit the blood—by all who bear the name—by all who cherish the memory of so honored and virtuous ancestry And I ask every one of you now present, ere eight and forty hours pass over your heads, to turn to that act—to read that preamble—and if you are Pennsylvanians, the blood will stir and prompt you to your duty.— There are arguments in that document far surpassing anything that my poor ability could advance on the subject, and there I leave it."

And with this conclusive and enduring record—the well considered and deliberate expression of the men of the Revolutionary epoch in reference to the rights and just status of the people of color, in one of the principal States of the confederacy, hastened by the untiring efforts of Benjamin Franklin—we may take leave of these most extraordinary statements and assumptions of the Chief Justice. W

Gov Gardner of Massachusetts, in his Proclamation for Fast, undertook to advise the clergy as to the subjects of their discourses,—requesting them to "abstain from political discussions,' and to be "impressed with the truth that national transgressions can only be corrected by removing individual sins. The Boston Daily Advertiser, Atlas, Springfield Republican and other papers, take the occasion to recommend the Governor to care of "his end of the schooner,' and not to intermeddle with the church department. He assumes the cant about "preaching politics" of those who never see the inside of a chapel or a church,—about the church interfering with the State &c,—and at the same time, as the Chief Magistrate of the State he endeavors to lecture the church as to its duty Our clergymen have not been too severe by any means upon "national transgressions. The difficulty is, they have made corrupt and reckless politicians personally responsible for these transgressions, and in so doing with fearlessness and faithfulness have subjected themselves to the abuse and censure which is too frequently heard

NEW MAP OF KANSAS—LECTURE BY MR FARREN On Saturday afternoon, at the Bangor House, we had the pleasure of examining a magnificent map of the eastern part of Kansas projected by Mr J D Farren, who has been in the Territory as a member of the famous New Haven Company, and who will exhibit his map and point out and explain the interesting localities at a lecture which will be further announced The map is thirteen feet square,—on a scale of an inch to the mile, and embraces about all the settlements which had been made up to January last—showing at a glance the various Indian reservations, and the great points of interest for persons contemplating emigration and others By the aid of this map Mr Farren will be enabled to fix the geography of the country indelibly in the mind His lecture will embrace a general history of the Territory, from the earliest dates, and some detailed account of the difficulties, troubles, and outrages which the settlers have encountered Mr F has taken an active part in the struggles for freedom and knows whereof he speaks The lecture will take place on Tuesday evening.

There was a rumor in town Saturday evening, (which has not yet been confirmed however, so far as we can hear) that Collector Sewall had been ousted, and Leonard Jones, Esq of this city appointed in his place, also that our Postmaster had been summarily beheaded, notwithstanding his acknowledged "nationality upon the slavery question, and his office given to somebody, name not reported These reports caused a good deal of fluttering and brought to the surface some half smothered curses upon the administration, but which were prudently choked down until further advices We think the first named appointment very probable, but we guess the postmaster is safe for the present

THE STATE FAIR. At the adjourned meeting on Saturday evening, of citizens interested in having the State Agricultural Fair held in this city next fall, the committee appointed at the previous meeting to solicit subscriptions to the guarantee fund, reported that the people thus far respond cheerfully and liberally, and a new committee was appointed to continue the canvass for subscriptions, and to confer with the committee of the State Agricultural Society relative to necessary arrangements.

A DESERVED TESTIMONIAL. We understand that on Thursday evening last, a committee, in behalf of subscribers to the Mercantile Library and the ladies of their families, presented to Mr. Smith, the gentlemanly and faithful Librarian, who has filled the station so long and acceptably, an elegant gold watch and chain, worth $160, and also presented to Mrs Smith a beautiful satin dress and other articles, to the value of about $60 The donors, express in this manner their just appreciation of the uniform patience, courtesy and kindness with which Mr Smith has performed his oftentimes perplexing duties, and also of his faithfulness to the interests of the Association and his excellent care of the Library

"TAKING TO THEMSELVES WINGS." Another package of money mysteriously disappeared in State Street, Boston, on Thursday It contained $3000, and had just been received at the Suffolk Bank by a messenger from the North Bank, and its receipt acknowledged Soon afterwards it was missing The Traveller says these disappearances have been of long continuance, and have baffled all the penetration of the officers of the banks and of the Police.

Holloway's Ointment and Pills Extraordinary Cure of a Bad Breast. The wife of Mr. Arthur Burns of New Orleans Louisiana was, after the birth of her last child a constant sufferer with a bad breast There were several holes in it and despite of the various remedies tried her husband could not get any thing to cause it to heal After every other remedy had failed to benefit the sufferer she had recourse to Holloway's Ointment and Pills which as a matter of course quickly caused an improvement in the appearance of the affected parts and by perseverance with these fine remedies for a few weeks she was completely cured This wonderful Ointment will also readily cure all diseases of the skin

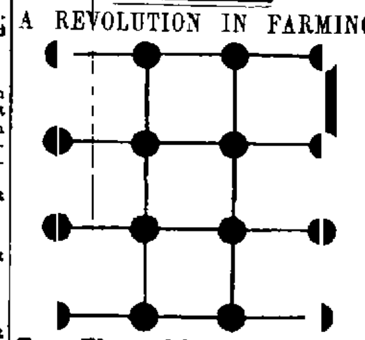
POSITION IN SLEEPING —It is better to go to sleep on the right side, for then the stomach is very much in the position of a bottle turned upside down, and the contents are aided in passing out by gravitation If one goes to sleep on the left side, the operation of emptying the stomach of its contents is more like drawing water from a well After going to sleep, let the body take its own position. If you sleep on your back, especially soon after a hearty meal, the weight of the digestive organs, and that of the food, resting on the great vein of the body, near the back bone, compresses it, and arrests the flow of the blood more or less. If the arrest is partial the sleep is disturbed, and there are unpleasant dreams If the meal has been recent or hearty, the arrest is more decided, and the various sensations, such as falling over a precipice, or the pursuit of a wild beast, or other impending danger, and the desperate effort to get rid of it, arouses us, and sends on the stagnating blood, and we wake in a fright, or trembling, or perspiration, or feeling of exhaustion, according to the degree of stagnation, and the length and strength of the effort made to escape the danger Waking up in the night with painful diarrhea, or cholera, or billious colic, ending in death in a very short time, is properly traceable to a late large meal The truly wise will take a safer side For persons who eat three times a day, it is amply sufficient to make the last meal of cold bread and butter and a cup of some warm drink, no one can starve on it, while a perseverance in the habit soon begets a vigorous appetite for breakfast, so promising of a day of comfort.—*Hall's Journal of Health*

A REVOLUTION IN FARMING



Corn Planted by Machinery.

A SUBSTITUTE for the slow and tedious process of planting corn has long been considered a desideratum, but until now the labored effort of inventive genius has failed in its production though years and much money have been spent to accomplish so great a piece of mechanism

Some estimates of the importance of an invention that will materially facilitate the production of this great staple may be formed from the fact that in 1856 near 800 000 000 bushels were raised in the United States exceeding in value all other grains, with the entire cotton crop in addition

The present universal method of planting this great crop is (after the ground is ploughed) by marking out the surface 3½ or 4 feet apart each way and in the angles thus formed a man drops 4 or 5 kernels and covers with a hoe at an expense of $1 to $1 25 per acre but failure of part and sometimes the whole crop results from the difficulty of obtaining sufficient force at the proper time in the spring to secure the planting at the most critical time

Practical men understand this every where. Numerous devices and machines have been made, but failure has only resulted A plan perfect in one respect was certain to fail in another, so as to render the whole worthless

No machine until now has been made to meet the universal demand of the farming interests in HILL check or angular planting so as to enable him to cultivate with plough and horse-hoe the crop, both ways between the rows

Drill planting is abandoned because of the impossibility of cultivating but in one direction

The long wished for machine has been invented and perfected by a young Scotchman, and is the result of three years unwearied efforts patient investigation, and the application of scientific and mechanical principles to accomplish a desired object.

The device is entirely new, simple and beautiful, working automatically, and yet so ingeniously and naturally as almost to appear the result of instinct

What Whitney's great invention did for cotton this great invention will do for corn, viz augment the quantity and diminish cost.

No description could convey a clear idea of its peculiar and simple mechanism

Without any Cogs Band Pulleys, Cranks Shafts, Springs, Lever or Gearing of any kind with a horse and guided by a man or boy this machine executes in a neat and perfect manner, the following described work, being what is wanted by every farmer

1st, Furrows out the ground any required depth

2d. Drops the corn (as many kernels as desired) in a space of 4 inches diameter mathematically in the HILL equidistant, in one tenth of a second.

3d Covers the HILLS and presses the earth as you do with a hoe

4th Marks accurately the position of each HILL.

5th Deposits if wanted guano, poudrette ashes lime, plaster or other common fertilizers exactly in the HILL

And 6th Also sticks the pumpkin or squash seed in the HILLS at the usual distances as now done by hand

And ALL this at a cost of 15 cents an acre by single machine and 10 cents per acre by a double one—10 acres being planted by the first and 20 by the second in one day, with no more force than a man and horse.

We are aware these statements look fanciful to that large, stereotyped, old fogy class who are about a quarter of a century in the rear of this progressive age, and whose ideas revolve in the old, slow coach train but we assure all such antiquated gentlemen that every word a *literal, naked* unadulterated truth obvious clear, and distinct to the most obtuse intellect or the dullest comprehension, besides being demonstrated by actual use on an extensive scale.

Here is a magnificent monopoly of a great staple Machine of immense intrinsic value It must reach the large productive class, whose interests are not *alone* promoted in its acquisition but in its application the millions are to be blest in the increased production of grain, and consequently cheap bread

In the distribution of this splendid prize, (*such it really is*) there is a rare chance for a Safe investment, lucrative beyond all ordinary calculations, in short, the truth in this connection seems almost fabulous

Sole proprietors, we are willing to divide upon an equitable basis, and offer the monopoly of this magnificent speculation for States and Territories upon the following terms *from which* THERE WILL BE NO DEVIATION.

All New England and Southern States *five cents* per farm All other territory six cents per farm—except Illinois which will be Ten cents per farm, Minnesota, $1000 Kansas and Nebraska $800, California $600

New York State will be sold in Counties to suit parties who wish to invest in limited sums The census of the United States of 1850 will be the basis of estimate

Terms of payment liberal and accommodating and to a company who wish to take the entire interest we will sell at a fair figure. We invite the public to examine this subject, and we will exhibit the machine with pleasure, but especially to those who take an interest in the material progress of this inventive age, as well as to those who cannot fail to find this an available medium of replenishing their exhausted pockets, or augmenting their already ample resources

P S We have made provision for the supply of all orders for machines at $18 each with fertilizer or $16 without—retail (1-4 off wholesale) until the Territory from which such orders come is sold, and when transferred will make an equitable discount a price of territory for machines thus delivered Each purchaser of States controls the making, selling and price in their territory and if not ready to manufacture for coming spring sales, we will furnish by 100's or 1000 s at a choice advance on cost, leaving a margin sufficient to satisfy the most exacting cupidity

OXYGENATED BITTERS.

BOSTON, November 1, 1850. *Gentlemen*:—Although averse to almost everything in the form of patent medicines, I would most cheerfully add my testimony in favor of your invaluable remedy for dyspepsia and general debility

The course you have pursued in submitting Dr Green's formula to a chemist of established reputation with the medical profession, merits the approval of scientific men and entitles your Oxygenated Bitters to the confidence of the public. I have used the medicine for some six months past and recommended it to many others, who will agree with me in saying it surpasses all other remedies known for the relief and cure of the most distressing complaints arising from weakness and any derangement of the digestive system.

With great respect your obedient servant, ...

DR. SANFORD'S

INVIGORATOR OR LIVER REMEDY!

IS REQUIRED TO CURE ANY ONE TROUBLED with Liver Complaints, unless the most desperate of cases, when the second bottle will, with scarce a single failure, restore the patient to health and vigor We wish to call the attention of all to these facts, that the Invigorator is compounded by a physician, who has used it in his practice for the past 20 years, with a success almost incredible, and that it is entirely vegetable, being composed wholly of gums Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of calomel, without any of its deleterious effects.

One bottle is the surest thing known to carry away the bad effects of mineral poison of any kind

Only one bottle is need ed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice, removes all yellowness or unnatural color from the skin

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring will prevent nightmare

One dose taken at night loosens the bowels gently and cures costiveness

One dose taken after each meal will cure dyspepsia

One dose of two tea spoonful will always relieve sick headache

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure

Only one dose immediately relieves cholic

One dose often repeated, is a sure cure for cholera morbus, and a preventive of cholera

One dose, taken often will prevent the recurrence of bilious attacks, while it relieves all painful feelings.

One or two doses taken occasionally is one of the best remedies for a cold ever known.

Thousands of Cases of inflammation & weakness of the lungs have been cured by the Invigorator

One dose taken a short time before eating, gives vigor to the appetite and makes food digest well

One dose, often repeated cures chronic diarrhea, in its worst forms, while summer and bowel complaints yield almost to the first dose

One or two doses cures attacks caused by worms, while for worms in children, there is no surer, safer and speedier remedy in the world, as it never fails.

There is no exaggeration in these statements They are plain and sober facts, that we can give evidence to prove while all who use it are giving their unanimous testimony in its favor

We wish all who are sick and debilitated to try this remedy, and test it thoroughly and any who are not benefitted by its use we should like to hear from them, as we have yet to hear from the first person who has used a bottle of Invigorator without receiving benefit for there are such restorative medicinal virtues in it, that all no matter how long they have been affected it their complaint arise from a deranged liver, will be benefitted if not entirely cured

GROVER & BAKER'S

New Family Sewing Machines!

PRICE $75.00.

Reasons

Why Grover & Baker s
SEWING MACHINE
—IS—
Universally preferred for Family Sewing

1st It is more simple and easily kept in order than any other Machine

2d It makes a seam which will not rip or ravel though every third stitch is cut

3d It sews from two ordinary spools, and thus all trouble of winding thread is avoided, while the same Machine can be adapted at pleasure by a mere change of spools to all varieties of work

4th The same Machine runs silk linen thread, and common spool cotton with equal facility

5th The seam is as elastic as the most elastic fabric so that it is free from all liability to break in washing ironing or otherwise

6th The stitch made by this Machine is more beautiful than any other made either by hand or machine

We have been appointed agents for the above Machines and have them for exhibition and sale at our store, where the public are invited to examine them FENNO & HALE

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE, subscriber, having purchased the right of making and selling *Davis Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights

For sale, fifty swarms of Bees, with the new hives

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Greatly Reduced Prices. $150. Baggage Free

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York from the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Side in new and commodious cars.

There is no delay on the Isthmus, connecting with the Panama Steamers, which leave *immediately* on the arrival of the cars.

The transit is performed in *four hours, entirely by day light*, and is one of great interest by those who desire to see the wonderful scenery and the many miles of magnificent road, which is now in operation over rocks and mountains.

Arrangements are now been completed so that passengers by the Pacific Mail Steamer will leave Panama immediately on arrival of the Atlantic Steamers, thus securing to passengers by this line a sure and *short passage* across the Isthmus.

☞ *Insurance at the rate of one per cent. is effected by the Agents of the Company*, and passengers may also be reassured by the Agents of Passage and Express Companies, in case of loss of baggage.

G. W STONE'S
LIQUID ATHARTI
AND
FAMILY PHYSIC,

The most successful and popular remedies in Medicine, as they are compounded on Rules and Principles which are the most powerful, safe, and active the power ever offered to the public.

This powerful and one lasting benefit both in Summer and Winter, as a sure cure for all Diseases arising from an impure state of the blood, or from a disordered condition of the Liver, Stomach, and Bowels. It operates upon these organs in a manner perfectly safe, and in every case where physic is required, but completely removes all those disagreeable effects which are produced by the use of Calomel, Blue Pill, or Mercurial preparations. It is perfectly harmless in its effects upon the system, and may be taken by the most delicate female or infant with perfect safety and the certainty of a cure. Being entirely vegetable, no restraint is necessary in its use, as to exposure to cold, change of diet, &c., &c.

Invaluable, Too, for Dyspepsia, Gout, Pain in the Head, Side, Stomach, &c.

For the cure of Fever and Ague, Fever and Ague Chills, Intermittent Fever, Bilious Fever, Dumb Ague, Chronic Diarrhœa, and Cholera Morbus, it has never been equalled, and in all cases of Liver Complaint, Dyspepsia, Jaundice, Sick Headache, Costiveness, Piles, Dysentery, Diarrhœa, Rheumatism, Neuralgia, Gout, Erysipelas, Scrofula, King's Evil, Tetter, Tumors, Salt Rheum, Ringworm, Scald Head, Ulcers, Fever Sores, Mercurial Diseases, Female Complaints, Nervousness, Sleeplessness, Paralysis, Dropsy, Dropsy of the Heart, Asthma, Consumption, Colds, Coughs, Influenza, Hoarseness, Sore Throat, Bronchitis, Pain in the Side, Back, Limbs, and Joints, Female Weakness, Irregularities, Suppressions, Whites, Nervous Affections, Hysterics, Sick Stomach, Vomiting, Heartburn, Flatulency, Loss of Appetite, Indigestion
